On February 26, 2002, applicant filed a petition under 37 CFR § 1.47(a) along with a Declaration and Power of Attorney executed by joint inventors Carl Alexander Kamb and Michael Leslie Pierce for themselves and on behalf of their missing co-inventors, Sanghee Yoo and Miguel Garcia-Guzman, in which the declaration was not executed by co-inventors Sanghee Yoo and Miguel Garcia-Guzman due to their refusal to sign.

As a supplement to that petition of February 26, 2002 and responding to your facsimile request of April 17, 2002, following are the last known residential addresses for inventors Sanghee Yoo and Miguel Garcia-Guzman:

Sanghee Yoo
 4249 Nobel Drive
 San Diego, California 92122

Miguel Garcia-Guzman
 4076 Carmel Springs Way
 San Diego, California 92130

As stated in the Petition of February 26, 2002, it is solicited that the Commissioner grant the patent in this application to the inventors making the application (Carl Alexander Kamb and Michael Leslie Pierce) subject to the same rights which the omitted inventors Sanghee Yoo and Miguel Garcia-Guzman would have had if they had been joined.

Should you have any further questions, please contact the undersigned attorney.

Thank you for your petition under 37 CFR 1.47(a) received on March 5, 2002. Unfortunately, the petition didn't provide the last known address of the nonsigning inventors. MPEP 409.3(e) states that the last known address at which the inventor customarily receives mail. See MPEP 605.03. Ordinarily, the last known address will be the last known residence of the nonsigning inventor. Petitioner has provided the last known address of employment as the last known address. Are the nonsigning inventors customarily receive their mail at the employment address? Please clarify the last known address for the nonsigning inventors.

The above may be submitted by facsimile transmission to the number indicated above and to my attention. It would be most appreciated if this could be sent to me within the next couple of days so that a decision on the petition will not be delayed.
